

Hummingbirds are welcome guests to all gardens. Favorite plants include brightly colored flowers with a tubular form. As hummingbirds feed on the nectar (half of their weight daily) they also ingest the tiny insects (protein source) drawn to the nectar. Additionally, as they feed, they carry pollen from one plant to another thus aiding pollination.

## Annuals

Abutilon (Flowering Maple)	Hibiscus	Pelargonium (Geranium)
Antirrhinum (Snapdragon)	Impatiens	Petunia
Begonia (Tuberous)	Lantana	Salvia
Cleome (Spider Flower)	Lobelia	Tropaeolum (Nasturtium)
Cosmos	Mimulus (Monkey Flower)	Zinnia
Fuchsia	Nicotiana (Flowering Tobacco)	

## Perennials

Acanthus (Bear's Breech)	Delphinium	Lobelia (Cardinal Flower)
Agave (Century Plant)	Dianthus (Sweet William)	Lupinus (Lupine)
Agastache (Hyssop)	Dicentra	Mondara (Bee Balm)
Alstroemeria (Peruvian Lily)	Digitalis (Foxglove)	Penstemon (Beard Tongue)
Aquilegia (Columbine)	Fuchsia	Phlox
Althea (Hollyhock)	Gladiolus	Rudbeckia (Black-Eyed Susan)
Asclepias (Butterfly Weed)	Heuchera (Coral Bells)	Salvia
Canna	Kniphofia (Red-Hot Poker)	Verbena
Crocasmia	Liatris (Gay Feather)	Veronica (Speedwell)
Dahlia	Lilium (Lily)	Yucca

## Vines

Bignonia (Crossvine)	Ipomoea (Cardinal Climber)	Thunbergia
Bougainville	Lonicera (Honeysuckle)	(Black-eyed Susan Vine)
Campsis (Trumpet Vine)	Clematis	

## Shrubs and Trees

Abelia	Cercis (Redbud)	Syringa (Lilac)
Aesculus (Horse Chestnut)	Cestrum	Malus (Crabapple)
Albizia (Mimosa)	Chaenomeles (Flowering Quince)	Robinia (Black Locust)
Arbutus (Strawberry Tree)	Cotoneaster	Ribes (Flowering Currant)
Azalea	Crataegus (Hawthorn)	Salix (Willow)
Callistemon (Bottlebrush)	Eucalyptus	Vitex (Chaste Tree)
Ceanothus (California Lilac)	Halesia (Snowdrop Tree)	Weigela
