

While many fruit trees are self-fertile, they all are better when pollinated by another variety.

Variety	Tree Size	Fruit Size	Pollenizer	Ripens	Fruit Color	Flavor	Applications
Braeburn	Semi-dwarf	Medium to large	Self-fruitful	Late October to November	Orange-red blush over yellow background	Crisp, tangy flavor	Good fresh. Great for sauce, cooking and canning
Fuji	Semi-dwarf	Medium	Self-fruitful; better with Yellow Delicious	September to October	Yellow-green skin with orange-red flush and darker stripes	Sweet, crisp, juicy, flavorful white flesh	Excellent for fresh eating and great for sauce and cooking. Stores well.
Gala	Semi-dwarf	Medium	Yellow Delicious	September	Heavy red striping on golden skin	Crisp, nice blend of sweet and tart, rich flavor	Excellent eating and good for baking.
Golden Sentinel	Columnar, dwarf	Large	Self-fruitful; better with North Pole	Mid-September	Golden	Extra crisp, juicy, sweet	Excellent for juice, eating and sauce.
Granny Smith	Semi-dwarf	Large	Self-fruitful	Late October	Waxy green	Moderately sweet, snappy flavor	Superb eating and cooking qualities. Never mushy. Good shelf life.
Gravenstein	Semi-dwarf	Large and slightly flattened	Yellow or Red Delicious, Fuji or Gala	August	Yellow orange fruit with red striping	Crisp, juicy with fine flavor.	Makes wonderful sauce, desserts and cider. Unexcelled for cooking. Does not store well.
Honey Crisp	Semi-dwarf	Medium	Yellow delicious	Late September through October	Mottled red over yellow	Exceptionally fresh and juicy with aromatic flavor.	Excellent and 'explosively' crisp eating apple. Good shelf life.
Jonagold	Semi-dwarf	Large	Yellow Delicious, Fuji or Melrose	Mid September through October	Striped red over bright yellow.	Crackling, juicy, superb, rich, full flavor	Fine dessert and eating quality. Good for cooking.

Variety	Tree Size	Fruit Size	Pollenizer	Ripens	Fruit Color	Flavor	Applications
King	Semi-dwarf	Large	Yellow Delicious, Macintosh, Melrose	Late September to Mid-October	Red striping over yellow	Crisp and sweet	Good for cooking, desserts and cider. Stores well
Liberty	Semi-dwarf	Medium to Large	Self-fruitful, better with Yellow Delicious	Early October	Bright and shiny with 90% red blush	Crisp, juicy sprightly flavor.	Good eating, cooking and desserts. Most disease resistant apple.
Lodi	Semi-dwarf	Large	Yellow Delicious	July	Clear yellow skin	Crisp, juicy with tart flavor	Good for eating and great for cooking. Good keeper.
Melrose	Semi-dwarf	Large and flattened	Yellow Delicious	Mid through late October	Yellow-green skin streaked with dark red with russet spots	Firm, coarse, juicy with slightly acidic flavor	Very good cooking and dessert quality.
Northern Spy	Semi-dwarf	Large and round	Yellow Delicious	Late October	Greenish yellow fruit flushed with red	Crisp, tart flavor	Excellent all- purpose and high quality dessert apple.
North Pole	Columnar, dwarf	Large	Golden Sentinal	September	Bright red	Crisp, juicy, McIntosh- type, aromatic	Delicious fresh eating variety.
Pink Lady	Semi-dwarf	Medium	Self-fruitful	Late September	Pink blush over a yellow background	Tangy and sweet, effervescent crisp crunch	Excellent eating and cooking apple. Stores well.
Red Delicious	Semi-dwarf	Large	Yellow Delicious	Late September to Mid-October	Waxy, dark red	Mild flavor and tender. Crisp and juicy flesh.	A favorite for eating.
Red Jonathan	Semi-dwarf	Medium	Self-fruitful, and Yellow Delicious, Lodi	Late September to Mid-October	Red blush over yellow ground	Juicy and sweet tart	One of the best for pies and sauce. Good eating
Red McIntosh	Semi-dwarf	Small to Medium	Self-fruitful; better with Liberty	September	Bright or dark red fruit	Tart, spicy flavor and delicious aroma.	Excellent for fresh eating. Good for cooking. Makes aromatic cider.

Variety	Tree Size	Fruit Size	Pollenizer	Ripens	Fruit Color	Flavor	Applications
Red Rome	Semi-dwarf	Medium to large	Self-fruitful	Late September through Oct.	Deep solid red	Very firm, tart, slightly juicy with pleasant flavor	One of the finest baking and cooking apples. Great for cider and drying.
