

Hummingbirds, Bees, and all pollinators are welcome guests in our gardens. Favorite plants include brightly colored flowers with a tubular form. As pollinators feed, they carry pollen from one plant to another thus aiding pollination.

Annuals

Abutilon (Flowering Maple)	Dahlia	Petunia
Alyssum	Fuchsia	Rudbeckia
Antirrhinum (Snapdragon)	Geraniums	Salvia
Angelonia	Hibiscus	Sunflower
